UKRAINE FINANCIAL WORKERS CRITICIZED -- Pravda Ukrainy, No 87, 14 Apr 49

A conference of financial workers of the Ukrainian SSR was held on 11-12 April. The Minister of Finance, G. L. Sekhnovskiy, noted some deficiencies in the work of Ukrainian financial institutions. He stated that the turnover of goods is poorly managed and no efforts are made to mobilize internal reserves and improve the carrying out of the state budget. There are frequent instances of chiefs of rayon or city financial sections who are not familiar with the economy of their rayons and who do not study the financial conditions of enterprises and kolkhozes. Consequently, they do not utilize the great possibilities for increasing internal revenue.

Certain financial agencies fail to persist in their efforts to fulfill the plan for mobilizing the resources of the population, and are devoting insufficient attention to attracting the savings of the population and profits from state insurance.
